

cMT X Series

IIoT Edge Computing

MQTT
OPC UA
Modbus

300+ Protocols Supported

Supports Modbus, CANopen and EtherCAT

PLC

Remote I/O

Features

Easy Monitoring: WebView

Without the need for installing any additional software, it is possible to monitor the HMI simply using a browser on a desktop computer, smartphone, or tablet.

Brand New Interface: Web 2.0

The revamped web interface delivers outstanding user experience in not only configuring the HMI, but also viewing data sampling and event logging. Additionally, the web access is secured with encrypted data transmission.

Intuitive Control: Gesture Operations

The cMT3162X is built with a capacitive type multi-touch screen that supports EasyBuilder Pro's latest gesture features to enable operations by intuitive gestures.

Vibrational Feedback: Event Alerts

The cMT3162X has built-in vibration for event alerts and haptic feedback.

These hardware and software advantages make the cMT X Series an easy fit in diverse applications and play a key role in system integration.

cMT X Series cMT3161X / cMT3162X
